---

**EXPERIENCE**

**WEBASTO ROOF SYSTEMS**  
April 2021-August 2021  
Worked as a Machine Operator. Had to quickly learn how to operate the machine to keep up with the high demand. Attention to detail was needed to make sure the parts were properly put on the machine.

**MWT WIRELESS**  
August 2020-April 2021  
Worked as a Retail Sales Consultant. Main duties were to sale ATT products and services to consumers. Had to adapt quickly to different types of consumers and listen closely to their problem and come up with a solution that would best suit their needs.

## **ELC CONSULTANTS**

December 2018-July 2020

Worked as a Cell Phone Repair Technician. Main duties were to repair and audit cell phones and other electronic devices. Also aided in the shipping and sales department taking orders and talking to customers via email when needed.

---

## **EDUCATION**

**WASHTENAW COMMUNITY COLLEGE IN ANN ARBOR, MI.**

**AAS DEGREE IN WEB DESIGN AND DEVELOPMENT.**

**EXPECTED COMPLETION IN 2023.**

My studies consist of the development side which is coding static webpages using HTML and CSS and dynamic websites JavaScript and their frameworks.

The design side focuses more on UI/UX Design. My focus in design is currently more on the UX Design and Research side. I have created personas based on certain users of a webpage as well as deliverables dealing with a competitive analysis of different companies, gathering user data to conduct card sorts, and deconstructing the structures of websites. I have also prepared wireframes and done interface redesigns for websites using Figma.
